

# Pilot Lights & Horn Switches

Small Accessory Hole

Large Accessory Hole

## Pilot Light - Large

Red neon light, 19 mm diameter, for use with 6, 8, 10 and 12 button enclosures. Fits into large accessory hole in enclosure, not button space. [Note: These can be installed at the “small hole” location, but in that location, must be factory installed.]

Part No.	Voltage	No. of Wires*
36088	12 / DC	1
36081	24 DC / AC	1
34316	110 / AC	1

## Momentary Push Button Horn Switch

19mm diameter, for use with 6, 8, 10 and 12 button enclosures. Fits into large hole in enclosure, not button space.

Part No.	Resistive Load (Volts)	Amperage	No. of Wires*
34312	125 / AC	6	1
	250 / AC	3	1

## Pilot Light

22 mm diameter; takes up one button space.

Part No.	Voltage	No. of Wires*	Colors Available
XA-35181*	12 / DC	2	Red, Amber, Green
36042*	24 VAC / VDC	2	Red, Green, Blue
34303*	110 / AC	2	Red, Amber, Green
36882	110 / AC	2	Blue only

\* Typical wiring - for general information only. Number of wires will vary depending on the wiring method used.

\*\* Insert Light Color, if not red: G=Green, A=Amber, B=Blue  
 Examples: XA-35181 = 12V DC, Red light  
 XA-35181G = 12V DC, Green light
